TOGAF® EA Foundation – Level 1

Course duration: 2 days
Course level: Foundation
Delivery option: Incompany group (onsite or online) only
User competency: Beginner / Competent
User profession: Enterprise / Business / Domain / Solution Architect, EA Manager
Prerequisites: None

Requirements:

– A Windows-equipped laptop to run modeling software (preferably Bizzdesign Enterprise Studio, but not required)
– Certified course materials (included in the fee)
– An exam voucher (included in the fee)
– You will need approximately 20 hours of self-directed study to prepare for the exam. This mainly consists of studying the TOGAF® Body of Knowledge, a subset of the TOGAF® Standard, 10th Edition materials.

General training course description

Improve and standardize your organization's architecture processes by applying the key concepts, components, and processes of the open TOGAF® Standard, 10th Edition. This two-day course is designed for anyone that is either directly involved in the enterprise architecture process, or interacts with the enterprise architecture activities and/or materials.

Upon completing this course, you will have a common language with TOGAF practitioners. You will also have a basic understanding of the TOGAF approach for Enterprise Architecture, including Agile delivery and application in a Digital enterprise. Furthermore, you will be ready to take the TOGAF® EA Part 1 exam at a Pearson Vue Testing Center. After you pass the exam, you will be awarded The Open Group TOGAF® Enterprise Architecture Foundation certification status, and recorded in The Open Group certification registry.

Our trainers are certified and accredited by The Open Group and have trained over 1000 TOGAF® participants with a 98% exam pass rate. Additionally, every trainer has extensive real-world experience in applying the TOGAF® standard in practice.

Learning objectives

At the end of this training course, you will:

- Have a basic understanding of Enterprise Architecture
- Have an overview of the components of the TOGAF® Standard, 10th Edition, especially the Architecture Development Method
- Understand the link between the TOGAF® framework, other architecture frameworks, and ArchiMate.
- Know how to use and apply the TOGAF® Standard, 10th Edition in practice.
- Be prepared for the TOGAF® EA Foundation (Level 1) exam.

Literature (recommended)

- TOGAF® Enterprise Architecture Foundation Study Guide (PDF) for sale via The Open Group webshop.
- An electronic copy of the TOGAF® Body of Knowledge (PDF) is included in the course.

Training course outline

Day 1

1. Course Introduction
2. Introduction to:
   - The Open Group
   - Enterprise Architecture
   - TOGAF
   - The Architecture Development Method (ADM)

3. Architecture Capability Framework
4. ADM:
   - Preliminary Phase
   - Phases A – H

Day 2

1. ADM Requirements Management Phase
2. Stakeholders, concerns, views & viewpoints
3. Architecture Deliverables
4. ADM Guidelines
5. Architecture Content

6. Architecture Techniques

7. Architecture Governance/Board/Compliance

8. Recap training & exam
