

TOGAF® EA Practitioner – Level 2

Course duration:	3 days
Course level:	Certified
Delivery option:	Incompany group (onsite or online) only
User competency:	Competent / Proficient
User profession:	Enterprise / Business / Domain Architect, EA Manager
Prerequisites:	Only open for TOGAF® EA Foundation – Level 1 certified individuals

Requirements:

- A Windows-equipped laptop to run modeling software (preferably Bizzdesign Enterprise Studio, but not required)
- Certified course materials (included in the fee)
- An exam voucher (included in the fee)
- You will need approximately 20 hours of self-directed study to prepare for the exam. This mainly consists of studying the TOGAF® Body of Knowledge, a subset of the TOGAF® Standard, 10th Edition materials.

General training course description:

This three-day course is for those who want to move beyond a simple understanding of the TOGAF® Standard, 10th Edition, and immerse themselves in advanced applications of the framework.

Upon completing this course, you will be ready to take the TOGAF® EA Part 2 exam at a Pearson Vue Testing Center. After you pass the exam, you will be awarded The Open Group TOGAF® Enterprise Architecture Practitioner certification status, and recorded in The Open Group certification registry. Furthermore, during the three days, participants will work in small groups on a number of architecture cases (problem-based learning). Participating in these classroom case studies awards you the badge for TOGAF EA Applied Practitioner.

Our trainers are certified and accredited by The Open Group and have trained over 1000 TOGAF® participants with a 98% exam pass rate. Additionally, every trainer has extensive real-world experience in applying the TOGAF® standard in practice.

Learning objectives

At the end of this training course, you will have learned:

- How to apply the TOGAF approach to transform and manage change
- How to apply the TOGAF method
- How to apply TOGAF techniques
- Be prepared for the TOGAF® EA Practitioner – Level 2 exam.

Literature (recommended)

- An electronic copy of the TOGAF® Body of Knowledge (PDF) is included in the course.

Training course outline:

Day 1

1. Course Introduction
2. The context for EA:
 - Enterprise Architecture – why, what, and how?
 - EA governance & compliance
 - Agility & Architecture Alternatives
 - Enterprise Security Architecture
 - EA in the Digital Enterprise
3. Stakeholder management:
 - Identify & manage stakeholders
 - Architecture Views
 - Trade-Offs
 - Manage Stakeholders' engagements

Day 2

1. Phase A, the starting point:
 - Activities in the Architecture Vision phase
 - Information in Phase A
2. Architecture Development:
 - Phases B, C, and D
 - Information in phases B, C, and D
3. Implementing the Architecture:
 - Phases E, F, and G

- Information in phases E, F, and G
- Realizing the Solution

Day 3

1. Architecture Change Management:
 - Phase H
 - Information in phase H
2. Requirements Management:
 - Requirements Management Phase
 - Information in phase RM
3. Supporting the ADM work:
 - The Open Group Library
 - The Architecture Landscape
 - Architecture techniques
 - The Architecture Repository
4. Recap training & exam
