Refresher Course Bizzdesign Enterprise Studio & ArchiMate® Introduction

Course duration:	1 day
Course level:	Refresher / Foundation
User competency:	Beginner / Competent / Proficient / Expert
User profession:	Any architect (from EA to application, to solution architect)
Prerequisites:	ArchiMate® introduction to modeling language
	This course is also suitable for non-Bizzdesign Enterprise Studio users

Equipment:

- A Windows-equipped laptop to run modeling software (preferably Bizzdesign Enterprise Studio, but not required)
- Certified course materials (included in the fee)
- An exam voucher (included in the fee)

General training course description:

In this one-day course, you will refresh your knowledge on how to apply the ArchiMate language with Bizzdesign's powerful software. You will learn how our software helps you to model, analyze, and transform the structure of your organization. Practical examples and hands-on exercises will make it easy to transfer what you learn in the course directly into your daily work.

If you are an architect, analyst, or consultant, who has been exposed to ArchiMate and Bizzdesign Enterprise Studio in the past and would like a refresher on the use of ArchiMate and Bizzdesign Enterprise Studio, then this course is for you.

In addition, this course is designed to be highly customizable, taking into consideration which areas need more or additional focus, and incorporating this additional focus in the hands-on exercises. A pre-course survey is requested of any team wishing to take this course in order to understand the needs and focus areas desired leading to the customization of this course.

Learning objectives

At the end of this training course, you will:

- Refresh your understanding of the ArchiMate modeling language
- Refresh your experience with Enterprise Studio with practical examples to do the following:
  - Know how to use Bizzdesign Enterprise Studio to model enterprise architecture
